Angel Food's groceries are sold in a quantity that can fit into a medium-sized box at \$30 per unit. Each month's menu is different than the previous month and consists of both fresh and frozen items with an average retail value of approximately \$60. Comparison shopping has been done across the country in various communities using a wide range of retail grocery stores and has resulted in the same food items costing from between \$42 and \$78.

Generally, one unit of food assists in feeding a family of four for about one week or a single person for almost a month. The food is all the same high quality one would purchase at a grocery store. There are no second-hand items, no damaged or out-dated goods, no dented cans without labels, no day-old breads and no produce that is almost too ripe. Also offered are specialty boxes such as steaks, chicken and pork.
